CENTRAL PENNSYLVANIA FEDERAL EXECUTIVE ASSOCIATION (CPFEA)

All area Federal employees are welcome to join the Central Pennsylvania Federal Executive Association (CPFEA). We are a voluntary organization comprised of military and civilian federal employees and retirees.

The purpose of the CPFEA is to improve coordination of government activities within central PA through interagency cooperation. These activities include, but are not limited to agency management, community affairs, and volunteerism.

CPFEA 2017

Central Pennsylvania Federal Executive Association

The Central Pennsylvania
Federal Executive Association
is not just for executives!

Background: Federal Executive Boards (FEBs) were established in 1961 by a Presidential Directive to improve coordination among federal activities and programs located outside Washington DC. FEBs are located in many major cities across the United States. However, there are still areas, such as Central Pennsylvania, that are not covered by a regional FEB. In those cases, volunteer organizations are often formed to promote coordination among local agencies. These organizations are entitled Federal Executive Associations (FEAs) or Councils.

The CPFEA is a regional organization with national counterparts. It covers 15,000 Federal employees in a 15 county area.

CPFEA Goals:

*Our goals include,
but are not limited to:*

- ◆ Providing career development and networking opportunities
- ◆ Improving agency cooperation on mutually beneficial programs
- ◆ Enhancing relationships between federal agencies
- ◆ Serving the people of Central PA through projects and volunteerism
- ◆ Recognizing teams and individuals for outstanding Federal service
